## Gek Terna Group

- **Robust financial performance by all segments leads to record level profitability (9M 2022 LTM adj.EBITDA € 515m)**
- **Maturing investments and market positioning drive growth momentum**
  - ✓ Diversified portfolio of activities and vertical integration mitigates risks
- **Leverage declines on the back of rising profitability - High liquidity – No near-term refinancing needs**
  - ✓ Fully funded investment pipeline with cash on balance sheet
  - ✓ Consolidated leverage declines to 3.0x on the back of rising profitability
  - ✓ Comfortable cash buffers to support increasing activity in construction and energy

## Construction

- **Activity ramp up continues (9M 2022 LTM Revenues > € 0.85bn)**
- **Profitability preserved** despite inflationary pressures due to diversified project mix and solid underwriting
- **Backlog** expected to increase further given expected new projects tendering

## Concessions

- **Traffic volumes in motorways above pre-pandemic levels**
  - ✓ Seamless cash distributions from operating motorways inline with concession contracts
- **Maturing pipeline of projects of € 4.5bn** to support growth and further increase size and shareholder cash returns
  - ✓ Perfectly positioned to capitalize on favorable market backdrop

## RES

- **Continued investments and portfolio quality** drive profitability higher
  - ✓ TE Load factor in Greece at 31.5% in 9M2022, vs. market average of 25%-27%
- **1.2GW currently underway**
  - ✓ Kafireas 330MW approaching completion – Amfilochia 650MW now under construction

## Thermal Energy Generation and Supply

- **Strong operational performance** despite market volatility
  - ✓ Vertical integration and solid asset management
- **Regulatory measures impacting sentiment but offering near term stability**
  - ✓ Full set of provisions included in 9M 2022 for all announced interventions

- **Higher revenues y-o-y** depicting growth in construction, RES and concessions. Results boosted by full consolidation of Heron II and Heron Energy (since 14.02.2022) vs. equity consolidation in 9M 2021
- **Adj. EBITDA increases** on higher contribution from RES (increased production) and construction (top-line growth and resilient margins). Positive contribution from thermal energy division post consolidation
- Increased net financial expenses on the back of higher debt levels during the period to fund ongoing investments
- Negative impact of embedded derivatives valuation
  - No cash impact
  - Effect on equity position counterbalanced by respective gains in Other Comprehensive Income (OCI)
- Positive impact from acquisition of control in subsidiaries (Heron Energy)
- Higher minorities due to increased profitability in Terna Energy

1. Non-cash items include mainly heavy maintenance provisions in concessions segment and provision for stock option plan in RES

2. Non operating items include: i) Profit of € 21.5m from the acquisition of controlling stake in HERON Energy; ii) Profit of € 7,0m from the valuation of natural gas and power derivatives; iii) loss of € 53,2m from the valuation of embedded derivative (IRS) in motorways vs. loss of € 9,8m in 9M 2021

- Changes in consolidation perimeter (Heron II full consolidation for entire period and Heron Energy since 14.02.2022) vs. equity consolidation for both in 9M 2021
- Positive operating performance despite significant market headwinds due to vertical integration
- Balanced profitability for generation and supply – Positive contribution from trading
- Bad debt formation inline with historical levels
- Stabilization of WC during 3Q 2022 – gradual unwinding
- Visibility impacted by volatile market conditions and regulatory interventions
  - Full set of provisions included in 9M 2022 in the context of relevant announced regulatory measures for electricity supply and generation
- Komotini CCGT (877MW-JV with Motor Oil) under construction (COD 2024)
