

GEK TERNA is the only Greek non-financial group to have secured an investment-grade rating, not from one, but from two international rating agencies.

Moody's was the first to assign the Group a Baa3 rating with a stable outlook. This was followed by S&P, which assigned a BBB- rating with a stable outlook, noting GEK TERNA's strong cash position and prudent financial management.

The investment-grade seal from Moody's and S&P confirms GEK TERNA's transformation into a leading European player in infrastructure and concessions.

Both international agencies recognize that the Group maintains a robust concessions portfolio, a strong construction activity, and demonstrates prudent financial discipline.
