**GEK TERNA Motorways – Traffic data 9M 2026**

GEK TERNA Group (Bloomberg: GEKTERNA GA / RIC: HRMr.AT) announces key traffic data for its main operating motorways for 9M 2026.

The average daily traffic on Attiki Odos motorway posted an annual increase of 2.5% compared to the respective period last year, with the average daily traffic (ADT) reaching c. 291,002.

The average daily traffic on Egnatia Odos motorway posted an annual increase of 1.3% compared to the respective period last year, with the average daily traffic (ADT) reaching c. 254,880.

Regarding Nea Odos and Kentriki Odos motorways, the average daily traffic for 9M 2026 posted an annual decrease of 1.3% and an annual increase of 5.6% respectively, with the average daily traffic (ADT) coming at 128,879 and 48,940 accordingly.

It is noted that daily traffic on Egnatia Odos, Nea Odos and Kentriki Odos motorways, during the month of January was directly affected by the farmers' protests which have now concluded. Also, daily traffic on Egnatia Odos motorway has been affected by the motorway rehabilitation works being implemented within the framework of the concession agreement.

| ADT                  | 9M 2025              | 9M 2026 | y-o-y |
|----------------------|----------------------|---------|-------|
| <b>Attiki Odos</b>   | 284,016              | 291,002 | 2.5%  |
| <b>Egnatia Odos</b>  | 251,568 <sup>1</sup> | 254,880 | 1.3%  |
| <b>Nea Odos</b>      | 130,604              | 128,879 | -1.3% |
| <b>Kentriki Odos</b> | 46,362               | 48,940  | 5.6%  |
